

SATURDAY EVENING, NOV. 28, 1896

HUNDREDS OF the poor people of the District of Columbia have obtained needed wages during the month just closing for necessary work at a race track in that District, and hundreds of the same sort of people, either of that District or of Maryland, will have the same sort of employment on a track just across the Maryland line and only two miles from the other one, during next month and January. The highly moral members of the legislature and the Governor of Virginia, instigated by the highly moral board of trade and newspapers of Washington, broke up the race tracks in Alexandria county and deprived many of the poor people of that county of the means of obtaining work and wages at those tracks, for the assigned reason that winter rac ing and bookmaking are immoral. So it seems that winter racing and bookmaking are immoral in Alexandria county, Virginia, but not so in the District of Columbia or in Maryland, a few miles off, and that, too, though practiced by precisely the same identical people-that is, according to the ideas of morality entertained by the Washington newspapers and the board of trade of that city.

THE RICHMOND Times, referring to the GAZETTE's opposition to the return Kahn, Sons and Company to break of the bolters to the democratic party until after due probation, says : "From its ancient and despotic throne the Ga-ZETTE hurls its anathemas one way, establishes the status of an individual another, and decrees the policy of State and nation with a disdainful sweep of its august hand." If the Times would the public and that they can't be readopt the GAZETTE's wise advice and specters of persons. cease abusing the white people of its State, now that it has deserted them and joined their enemies, and trying to afford the latter ground for attempting San Francisco. He is in Warrenton to pass a force bill, its impotency would now, but will be in Alexandria to-mor be less conspicuous, though, apparently, nothing can stay its voluminous twaddle.

A REDUCTION in wages has been big strke is threatened at Pittsburg against a reduction in the wages of the street railway employees there, and some of the Northern trade newspapers | thing of the past to the Prince. acknowledge that the expected revival of business and industry has not taken place. But Mr. McKinley has been elected, the incomes of the rich have been exempted from taxation, and a higher tariff, for the injury of the poor and the benefit of the trusts and combines, has probably been secured. Why, corner of 11th and E streets. certainly! The republican party tal care of the plutocrats; let the poor look out for themselves! A promise is one thing; its fulfillment quite another.

ONE of the New York organs of the plutocrats says: "Except for the eleven old Confederate States Bryan would have made a pitiful show in the electoral colleges." Yes, the South_ ern States, and they alone, have always stood by the people, and, therefore, by the Constitution. Their people are in favor of equality of opportunity, and are opposed to special legislation for the especial benefit of any particular class of people. Of their vote at the recent election they may well be proud.

THE GLASS workers, who were in duced to vote for Mr. McKinley by the promise of an increase in wages in the event of his election, now demand that the Dingley bill be passed at the coming session of Congress, as that bill increases the tariff on glass and would enable the owners of the glass works to pay them higher wages. But some of the republican managers don't see the matter in any such light, and, as they say, want a "rest" in the tariff, as their allies, the bolters do.

AFTER ALL the help the negroes have afforded the republicans, who, but for The only thing, he says, the republi-that help, would have been defeated at caus will do will be to pass a higher the late election, their petition for pensions is being scouted by them, and they say that if the vuestion of gratitude be a factor in the case, they, and not the negroes, should be the recipients, as they freed the slaves and educated them. There is no sort of ingratitude more common and conspicuous than political, and that of the republicans to the negroes is positively monumental,

A GENERAL strike at the alkali works in Smyth county was caused by the failure of the proprietors to fulfill the promise of increased wages they made to their hands in case of Mr. McKinley's election, and for filling the places of a few men who had quit work on account of that failure with negroes. The wages were not increased, but the strike was declared off when the poor negroes were discharged. All the negroes referred to voted the republican ticket at the late election.

have done infinitely more good to suffering humanity, goes without saying. Those who don't provide for their own household first, are worse than the heathen.

MR. BOURKE COCKEAN, in a speech he made at a bolters' meeting in New York a night or two ago, said : "We are bound to recognize that the republican party has been the party of victory, and we are bound to support the republican polity." Of course they are, and the chief item of that polity is a high protective tariff, against which the democratic party, in accordance with the Constitution, has protested from the first, and which the plotocratic bolters, headed by Mr. Cleveland, vigorously opposed up to the late election, when they were threatened with a tax on their surplus incomes.

THAT THERE is an evident design to perpetuate the bad name the U.S. battle ship Texas has acquired, is made plain by the fact that one of the naval surgeons now says she is infected with typhoid fever by reason of the germs in the sediment that was left in her when she was raised from the salt water, and which can not be effectually removed from her seams. And this, too, though been raised from the sea. The Texas the residence of Mrs. Slidell, in Princewas built at Norfolk.

WASHINGTON, Nov. 28. The chief topic of conversation among the women here to-day, is the refusal of the large dry goods store of their strictly cash rule and allow Mrs. Cleveland, who was waiting at the door in her carriage while her maid was making the purchases, to have the goods until she paid for them, which she did not do, but drove away without them. travel the road that comes into King street, and it ought to be done at once, but it is very wrong to saddle such an expense on Alexandria county when it will do the people of this county so little good. And I make this state-ment that the people can see this wrong. We will take the location first. It is a narrow piece of land at the point to extend Prince parallel with King my boat. I would not have hurt any street. It is about — feet wide to one if my arrest had been attempted at the line of Fairfax county, and if the the scene of the crime. I killed Irwin street is to be extended it ought to be done parallel with King, and that way me that he would kill me, and I did it the dirt which it will take to raise the to save myself." grade can be obtained with one-half the expense on account of there being a bank to cut through which will furnish the dirt that can be put in place by It is said here that the house Mr. Cleveland has just purchased in Prince.

Of this road. They want to put all of the expense on Alexandria county, and to do this they want to run the coat pocket.

Of this road. They want to put all of the road pocket of the premises, for Baker had been a rest of the premises, for Baker had been a rest of the premises, for Baker had been a rest of the premises, for Baker had been a rest of the want to run the light thing from the coat pocket the Wissabickon Mutual Fire Insurance ident of the county some five years or gun was accidentally discharged, and to do this they want to run the road diagonally across this marshy his term of office, is one of the most place and come out in the King street every foot of it to be filled in and the grade will have to be raised on an average of about five feet and not any dirt cared only for herself and wanted to put the age of about five feet and not any dirt to fill in with but what will have to be morning of consumption.

General Fitz Lee is still here. He culvert to be put in to take the water of a good stream and rain water that comes down a valley with this stream several miles above. On account bad drainage at the Stone bridge below I have seen the water in this marshy place five feet deep after a heavy rain. I hope the people of Alexandria county will see who these others are that are mentioned in the petition to the court to open this road, also those who presented this petition and see if he or she lives in Alexandria county. I don't think they do. I think they must live in Alexandria city and when they got the charter for the electric railroad, which I have reason to believe is largely in the hands of the Pennsylvania road, they failed to think of their interest in Fairfax county, and let the railroad come out in the middle of the road at the west end of King street, and now they are afraid to drive out that way. Now my friends if you do find that this party that got up this petition and presented it to the court to open this road does live in Alexandria city my advice to you is to leave him there and we will go in town and show him or her the way his or her town has been treating us in the way of an outlet to our county. Although we have some very good roads coming to the corporation line of Alexandria, yet they have not made one decent road or street to meet our Under such circumstances I think these lawyers who get paid for working charters through the legislature for railroads through the middle of the carriage way might get the electric ment was taken until to-day in order to road to put its track on one side of the give Mr. Charles M. Alexandria court to open a road in Alexandria county it binds us to keep the same in good repair. And if the water is dammed back to the extent to cause an overflow the repairing of this new road will cause Alexandria county a great deal of trouble. I will further say that if Judge Chi-chester has ordered this road to be opened and has done it through a faopened and has done it through a favorable report from a committee he has done it by appointing committee after committee until he got one to suit, because I was on the first committee and we reported that something ought to he done for the safety of those who he done for the safety of those who be done for the safety of those who

WESTERN STORMS. The Dakotas and northern Minnesota are in the grip of the ice king. The worst early winter blizzard that ever visited that part of the country has been raging for three days. It began with a rainstorm, following a spell of mild weather. The rain turned to sleet and snow, the mercury fell twenty degrees in twelve hours, and for the last two days in some parts of the Dakotas it has been below zero. The storm is the greatest that has visited that section since the blizzard of January 12, 1888, in which 107 lives were lost. SHE KISSED THE UGLIEST MAN .-As a result of McKinley's election the Patent Office in Washington was the scene yesterday of an unusual episode, in the shape of the prettiest girl kiss-ing the homeliest man. It fell to the lot of Miss Dorothy Marks, a Kentucky blonde, not only the best-looking among the Bryan supporters, but the belle of the Interior Department, to kiss the ugliest man, and the judges (consisting of two young ladies. Bryan maiden, the other a McKinley admirer) decided that she must kiss Mr. Charles H. Hammer as the ugliest clerk in the office. Mr. Hammer is, it is said, a confirmed bachelor. As soon as he made his appearance Miss Marks approached and kissed him in due and ancient form.

As there is no probability of an appropriation or bonds being isstreet improvement why can: have some of the most wretch streets repaired? Instead of ex-Prince street across the marsh. been suggested, why not pu Peyton street the large gutter of the Virginia House and fill un holes with some gravel; auce of the road from the House to Hooff's Run is in splend dition and will answer very we street between Prince and K Prince street between Pitt Asaph could be put in pretty go dition by tearing up the large in the centre of the street and them up and relaying them again out costing the city a grea county on the north. The gutte an awful condition to drive over A special from Nelsonville, O., says the entire plant of the East Clayton Brickmaking Company there was destroyed by fire early this morning. The loss is estimated \$100,000. One hundred men are thrown out of employment by the fire vehicles are put to who have to overit. Then the gully on Washin side) is perfectly awful to drive why not bridge that, and have the phone pole moved farther back the way; also the gutter on Pin crossing Wilkes street on the west improvements and a few other streets that are used a great deal
